

ESCAPE THE EVERYDAY

WHY ATLAS ?

Atlas is the most feature-rich and smoothest riding cart in the industry. With the largest standard lithium battery pack in the industry, the Atlas provides more than enough range to cover your needs. Things like more locking storage, wireless phone charging and sound system come standard on every model. Everything about the Atlas was meticulously thought out for distinctive styling. There's no other golf cart like it on the market. Every model comes with an industry leading, extended-range lithium-Ion battery paired with a powerful AC drivetrain. We understand safety is the most important thing. Every Atlas comes standard with four-wheel hydraulic disc brakes and three-point seat belts for every passenger. From contoured diamond stitched seats to standard size cupholders for all passengers, the Atlas redefines cart comfort. Designed and tested to last a lifetime, our Atlas has been thoroughly tested for durability and reliability to give the most value in the industry. 700% emissions free. All Atlas vehicles are electric powered and produce zero direct emissions.
